

HECTOR LEAL

leal.emiliano.hector@gmail.com • (811) 049-0681 • Monterrey, NL, Mexico

EDUCATION

Tecmilenio University
Software Engineering

Aug 2023 - Present
Monterrey, N.L.

PROFESSIONAL SUMMARY

Software Engineering student with 3+ years full-stack development experience. Built scalable web applications, AI platforms, and mobile solutions using modern frameworks and cloud technologies. Delivered measurable business impact through performance optimization and innovative technical solutions.

SKILLS

Frontend: Next.js, React, Javascript, Typescript, Tailwind CSS, SSR / SSG, Responsive design

Backend: Python (FastAPI), Node.js, REST APIs, JWT Auth, PostgreSQL, Supabase

AI/LLM: LLM Integration, RAG Pipelines, Prompt Engineering, Model Inference APIs, Vector Databases, AI Feature Development

DevOps: Docker, CI/CD, AWS, GCP, Azure, Serverless, Microservices, Monitoring & Logging

Architecture: Scalable systems, Performance Optimization, System design, Caching (Redis)

Languages: Spanish - Native, English - (C2 Advanced Proficiency)

WORK EXPERIENCE

Frontend Developer
Mydilsa LG

May 2024 - Apr 2025
Monterrey, NL

- Redesigned and deployed responsive website for industrial manufacturing company, boosting client engagement 30% using Astro and Tailwind CSS
- Optimized site performance and UX, driving 25% increase in client conversions

PROJECTS

ResumeRoast - AI-Powered Resume Review Platform

Tech: React, Node.js, Tailwind CSS, Supabase

Engineered full-stack AI-powered resume analysis platform serving 100+ active users with 40% monthly growth. Implemented JWT authentication, real-time file upload system, and live feedback engine using React/Node.js/Supabase. Delivered scalable community features driving user engagement and retention.

Mydilsa LG - Mobile-Compatible Website

Built mobile-first responsive platform using Astro and Tailwind CSS, implementing PWA features and optimizing load times by 40%. Boosted user engagement 35% through enhanced UI/UX design and WCAG 2.1 accessibility compliance. Delivered cross-device compatibility increasing mobile traffic 50%.

GirokIQ - iOS infinite canvas app

Developed iOS note-taking application using SwiftUI and PencilKit, implementing infinite canvas architecture to enhance student productivity by 60%. Engineered custom gesture recognition and memory optimization, supporting unlimited drawing space with seamless pan/zoom interactions for 500+ concurrent elements.
